

DRIVE FISHERS

GATEWAY AT FALL CREEK AND BROOKS SCHOOL RD.

Drive Fishers is the City of Fishers' initiative to increase travel efficiency, improve connectivity and maintain the sanitary sewer and water infrastructure via innovative projects and a proactive approach to construction and maintenance.

Since 2012, Drive Fishers has completed traffic calming projects, sanitary and storm sewer projects, 29 resurfaced lane miles, 6.5 trails and sidewalks, and received more than \$20 million in grants, improving the infrastructure in Fishers while leveraging federal dollars to save money for the Fishers' taxpayers.

Infrastructure improvement projects contribute to long-term vitality of our community and increased economic development opportunities.

PROJECT SCOPE

The Department of Engineering and the Department of Community Development worked together to identify three main entryways into our community for the purpose of beautifying them and highlighting some of the distinct characteristics of Fishers. Partnering with the Geist Impoundment Board, the departments have designed two gateways along Fall Creek that maintain a 'Fishers' theme while allowing for a Geist District. The entryways are areas that both motorists and pedestrians travel throughout town, and the gateway projects aim to create a welcoming feel for citizens that may be traveling in and around Fishers, without Fishers being a destination they feel compelled to visit.

The gateway being constructed at the intersection of Fall Creek and Brooks School Rd. will provide aesthetic improvements making the intersection safer for pedestrians, welcoming to tourists and improving economic development opportunities. The gateway project also promises to preserve greenspace around the intersection. The Geist Impoundment Fund is funding the gateway project.

Utility work was completed to improve overall efficiency around this intersection. Construction was completed during fall 2014.

PROJECT OVERVIEW

PROJECT STATUS: COMPLETED

BID DATE: MARCH 14, 2014

ANTICIPATED CONSTRUCTION: AUG. 2014-NOV. 2014

DESIGN CONSULTANT: RUNDELL ERNSTBERGER ASSOCIATES, LLC.

ESTIMATED PROJECT COSTS: \$414,000

PROJECT BENEFITS:

- LANDSCAPING AROUND THE INTERSECTION
- WELCOMING ENTRYPOINTS INTO FISHERS

Photo captured during construction.
