

## FISHERS WATER QUALITY PLEDGE FREE RAIN BARREL PROGRAM

Register for a water quality related pledge at [indiana.clearchoicescleanwater.org](http://indiana.clearchoicescleanwater.org), contact the Stormwater Program at 567-5056 or [stormwater@fishers.in.us](mailto:stormwater@fishers.in.us) and provide us your contact information, pledge verification (should be automatically emailed to you from the Clear Choices website), and location address, and get a **FREE** rain barrel from the City of Fishers Stormwater Utility.

Once we have verified your pledge, we will contact you to arrange for your rain barrel pickup. **If you do not send us the information as requested above, you will not be notified about a rain barrel as we will not know about your pledge. The Clear Choices website does not automatically notify us.**

Available to **Fishers residents only. One rain barrel per household.**

If you are unsure if you are annexed into the City, please contact us before making your pledge.

Did you know:

1. Rain barrels are good for water conservation.
2. Can be used to water outdoor plants and for car washing.
3. Rain water is better for outdoor plants than tap water.
4. According to the US EPA, irrigation accounts for 40% of water usage in summer months.
