GATEWAY FEATURE: Nickel Plate Review Committee is needed to approve the use and location of gateway features at key location

Chad May and Randy Sherman were present to answer questions. Neighborhood meetings were held with Charleston Crossing and Fishers Pointe residents.

Staff recommends approval as presented.

In Committee discussion, Emily Bowman asked about assigned vs unassigned parking spots and Hardi plank siding, confirming that all units are rentals. Eugene Johnson asked about bike racks, and if there would be any overspill to the Commercial property to the West. Selina Stoller asked about: ROW precedent on 116th St., which is not inconsistent with the transportation plan. Setbacks and buffering for Charleston Crossing residents, the Westernmost building not being parallel to 116th St., the home by Chatham Tap.

Tom Dickey added that the CC residents are happy that the duplexes are on the Western property line. Traffic is their #1 concern. The westernmost building is angled to screen the parking lot. The home by Chatham Tap will be developed in Phase II. The Juliet balconies and the placement of the Gateway feature were also discussed.

Ms. Bowman asked for a Motion for NPR-21-1. Mr. Johnson made a Motion to approve based on a successful TAC process, which was seconded by Ms. Stoller. The Motion was approved, 3-0.

As there was no other business, the meeting concluded at 5:40 p.m.

Respectfully Submitted by:
