

INTERSECTION IMPROVEMENT AT 131ST & CUMBERLAND ROAD

Drive Fishers is the City of Fishers' initiative to increase travel efficiency, improve connectivity and maintain the sanitary sewer and water infrastructure via innovative projects and a proactive approach to construction and maintenance.

Since 2012, Fishers has completed traffic calming projects, sanitary and storm sewer projects, 29 resurfaced lane miles of streets, installed 6.5 miles of trails and sidewalks, and received more than \$60 million in grants, improving the infrastructure in Fishers while leveraging federal dollars to save money for the Fishers' taxpayers.

Infrastructure improvement projects contribute to the long-term vitality of our community and increased economic development opportunities.

PROJECT SCOPE

An intersection improvement project is scheduled to begin in the summer of 2018 at the intersection of 131st Street and Cumberland Road. This project will turn the current signalized intersection into a two-lane roundabout intersection. Work will include: pavement removal and replacement, the installation of crosswalks for pedestrian traffic in all directions, and new lighting. Improvements will increase traffic capacity and improve the safety of the intersection for motorists and pedestrians.

Once construction has begun, updates about the project will be posted on weekly construction updates or via the Drive Fishers Twitter page. Citizens can sign up for weekly construction updates by visiting www.Fishers.in.us and clicking on Fishers Alerts.

PROJECT OVERVIEW

PROJECT STATUS: In Design

BID DATE: February 2018

ANTICIPATED CONSTRUCTION PERIOD:
Beginning Summer 2018

DESIGN CONSULTANT: Beam, Longest, and Neff, LLC

ESTIMATED PROJECT COSTS: Approximately \$2M
(80% Federally Funded)

PROJECT BENEFITS:

- Intersection Improvements
- Improved Traffic Flow
- Increased Pedestrian Accessibility
- Improved Motorist Safety

A RENDERING OF THE INTERSECTION
