DIRECTIONS FOR USE

1) Details prepared by outside sources shall not be included in the construction drawings
when said details cover that which is covered by City Standards.

2) Applicable sheets from the City Standards shall be attached to the Construction
Drawings and shall be considered part thereof. Individual City Standards that do not
apply may be crossed out by the design engineer through the placement of a single large
X over detail. Minor reference notes may be placed adjacent to individual standard
items for coordination. However, the standards themselves shall not be modified in any
way.

3) Details prepared by outside sources covering work which is not covered by City
Standards, are the sole responsibility of the design engineer and shall be placed on
sheets other than the City Standard sheets.

4) Failure to properly execute the above directions for use will not affect the
applicability or the enforcement of the City Standards.

5) City of Fishers shall be contacted when required by calling the Director of
Engineering.

6) City Standards to be used in conjunction with Transportation Plan and Construction
Specifications.

7) INDOT refers to Indiana Department of Transportation, Current Version

City Standards Apply to Public Property & Private Property.
